Income Calculation and Installation Address

How income is calculated

1. Applicant income is based on bank-statement history for the past 3 or 6 months.
2. Total debt burden (including LG debt) must not exceed 80% of income (DTI not more than 80%).
3. Actual debt burden is calculated from the figures shown in the NCB report.
4. For credit cards on the NCB report, use the minimum payment shown in the NCB report.
5. If there is a co-borrower, divide the debt burden by the number of co-borrowers.

Category: Thai Juristic Person (Corporate Customer)

Clause 3 — Definition of "Corporate Customer"

① A customer qualifies as a Corporate Customer only if both of the following are met:

1. The organization can submit the corporate-customer qualification documents required under the Credit Control policy.
2. The customer enters into a membership hire-purchase contract for 9 units or more (Contract) in a single order.

② Unit count includes all product categories combined. Products do not need to be the same type.

Example

6 water purifiers + 3 air purifiers = 9 units in total
(Different product types are still counted together, so this meets the Corporate Customer threshold.)

Clause 5 — Installation-site conditions

① The installation site is limited to the place of business, building, or area that the contracting Corporate Customer owns or leases directly. Installation at a location registered in another person's name is not allowed — e.g. an employee's private residence or the office of an affiliated company.

② If paragraph 1 is met, the customer may split installation across multiple sites (see permitted-site examples in [Appendix Table 1]).

③ If after signing it turns out that some sites cannot be installed, and the number of units actually installed falls below 9, request approval under Clause 10 (exception approval). The company reserves the right to inspect readiness and feasibility of the installation area.

④ The contract term follows the membership service terms and conditions.

[Appendix Table 1] Examples of permitted installation sites

(for Thailand)

Organization type	Examples of permitted sites	Examples of sites not permitted
Juristic person / private company	HQ, branch, factory, distribution center (warehouse), registered shopfront	Private home of an employee / executive / company director
Educational institution	Main campus, satellite campus, academic building, dormitory operated by the institution	Private home of a teacher / lecturer / education staff member
Government agency / state enterprise	Department/division (central), regional office, public service center, district office	Private home of a civil servant / state-enterprise employee
Healthcare facility	Main hospital, branch hospital, health-check center, clinic in the network	Private home of a doctor / nurse / medical staff member
Other organizations (foundation, association, etc.)	Place of business, building, or area that the organization owns or leases and operates legally	Office of a partner company; site of an affiliated company (registered as a different juristic person)

1. Examples in this table are a starting guideline only. Actual site approval follows Clause 5 paragraph 1: the site must be owned or legally leased by the contracting organization.

2. Even if the department or on-site unit name differs from this table, installation is allowed if it can be proven that Clause 5 paragraph 1 is met.
